"The Ottawa Spotlight"

A Weekly Review of National Affairs
(By Wilfred Eggleston)

Ottawa, Sept. 22nd.—Wheat cuts such a large figure in the economy of Canada that every province is interested, directly or indirectly, in what happens to the crop. The buying power of the prairies is reflected in every economic area: the transportation and port facilities of B. C. and the Maritimes, as well as Ontario and Quebec are affected by the size and character of the crop.

The first official estimate of the yield has been made, and it is now possible to summarize the situation:

1.—The total wheat crop this year, east and west, spring wheat and fall, runs to about 118 million bushels. Back in 1928 the wheat crop was 666 million bushels. That was a record; the average over the past ten years is perhaps 250 million. There is, then, roughly, a half crop for the Dominion as a whole.

2.—The prairie wheat crop is estimated at 144 million bushels. This is the lowest figure since 1914, when about the same amount was raised on about 40 per cent of the 1927 acreage.

3.—Domestic requirements of one sort or another—call it "Apparent Home Consumption" if you will—usually run to 100 million or better. The average of the past ten years is somewhat higher. Canadians eat, as flour, from 45 to 50 million bushels; farmers plant 35 to 40 million bushels; at millions go for chicken food, pig feed, etc. Deduct this from the current crop, and you have only about 10 million bushels available for export.

4.—Canada thus tumbles sharply from her usual place as the leading wheat exporter of the world. She has exported, in a single year, as high as 254 millions (1928-29).

5.—Transportation and storage companies, with an abnormally small crop to hold and move, will naturally suffer in the current twelve months.

6.—The net return to the wheat farmer of Canada, of the wheat which he will have to sell, may be somewhat higher than last year. In 1936, when the total yield was 229 millions, he sold or fed (allowing 40 millions for his own need) 189 millions, at an average price of 89 cents, or \$168,210,000. This year, with 148,000,000 bushels to sell, either in domestic markets or abroad, he will have to average \$1.14 a bushel to obtain as much. So far he has done, perhaps, a trifle better than that.

7.—The wheat failure—for that matter the failure in all grain crops—fell with very unequal incidence on the four main wheat provinces, Alberta, Saskatchewan, Manitoba and Ontario. (a) Alberta will harvest 76 millions. It is calculated, as compared

with 67 last year. With the higher price prevailing, this means between 25 and 40 per cent gain in the purchasing power of the Alberta wheat farmer.

(b) Saskatchewan has the 100 per cent of the drought. As compared with last year's light crop of 117 millions, this year the estimate is only 25 million bushels. It should be remembered that Saskatchewan probably sowed 17 million bushels last spring, and thus got its seed back, plus enough seed for next spring. The greatest wheat province in Canada—perhaps in the world—having perhaps, to import wheat. The idea is almost fantastic.

(c) Manitoba has a crop of 53 millions, as compared with 28 millions in 1936 and 23 millions in 1935. With current prices, the Manitoba wheat farmer will make more money from his crop than for many years.

(d) Ontario had a heavy fall wheat crop, as compared with 12 million last year and about the same in 1935. This year the yield is over 20 millions. With current high prices the Ontario farmer has made a lot more from wheat than he has done for a number of years.

8.—There is no longer any "right or wrong" over the sticky wheat. The stock at the end of the last crop year (July 31) were down to about 30 millions, about as low as it is practicable to cut them. That every province had at the end of the present year the bias will be ascertained. That disposes of any surplus hog for 1938. Moreover, there are signs that the long drought is breaking at last.

COMING EVENTS

Powel Supper and Tombola under auspices of Ladies Aid of St. George's Church Wednesday, October 6th in the Memorial Hall. Supper served at 5:30 p.m. Bingo and other attractions to follow. A good time assured. The date clear to be night.

Dance Friday, Sept. 24th at Nightingale Hall. Poppy music supplied by Walter Mercer's orchestra. Always a good time at Nightingale.

All Hockey fans are urged to attend a meeting in the Town Hall Monday, Sept. 27th at 8:30 p.m. to organize for the coming hockey season and other matters to be discussed. Town Hall Monday next at 8:30.

Patterson's One Cent Sale, brings you bargains too good to miss. Watch for it Wednesday, Thursday, Friday, and Saturday, Sept. 29 and 30, Oct. 1 and 2.

Local News Items

Mr and Mrs W. S. Patterson have as guests the former's cousin Mrs. Lewis and daughter Helen of Coronation.

Mr Alvah Downey has left for Edmonton where he will continue his course in Dentistry at the University.

The Tea sponsored by the Ladies Aid of United Church last Saturday was well attended and the Treasury enriched by about \$20. Convening the Tea were Mrs. McGregor, Mrs. Jones, Mrs. Campbell and Mrs. Lounsbury. Mrs. Nichol was in charge of the Home Cooking table. Marion Gilbert, Margaret Lounsbury, Annie McGee, Frances Jones, Eileen Weir and Iola Cleve, acting as servers.

We know a popular young bachelor (28 years) who tries very carefully the various cake and other recipes published in "The Standard." So for his special benefit we give the following:

For Fruit Cake—If cut fruit, nuts or raisins or currants need to be washed before adding to a fruit cake batter, be sure that they are entirely dry before mixing with the other ingredients. If the batter is for a white fruit cake, dredge the fruit and nuts lightly with flour before adding. If for a dark cake, they may be mixed with the sugar and added with it. **Summer Salads**—Golden Glow Salad—1 package lemon jelly powder, 1 1/2 cups boiling water, 2 tablespoons vinegar, 1 cup of grated raw carrot, 1/2 teaspoon salt, 1/2 cup cucumber, diced and drained, 1/2 teaspoon minced onion. Dissolve jelly in boiling water. Add vinegar and salt. Chill. When slightly thickened, add vegetables. Turn in to moulds. Chill until firm. Unmould on crisp lettuce. (Serves six).

Acting on the committee to arrange for the (Oratorical contest) are Messrs S. H. Crowther, Norman Ellis, Roy Eyles and Jack Van Tighem.

Mr and Mrs D. V. Belts have as their guest for a couple of weeks, Mr Belts' mother Mrs. Elita Belts of Pendleton, Oregon, his sister Mrs. C. H. Belts of Seattle and Mr and Mrs Elbert Belts of Pendleton, Oregon.

A Committee meeting to arrange for the annual Oratorical contest will be held during the week end.

The Strathmore Dramatic Club will hold its first meeting for the coming season, Friday, Sept. 24th in the High School at 8:15 p.m.

Mr and Mrs H. A. Brown have returned from a holiday trip to Winnipeg.

Mrs Art Hay and children returned this week from a visit to Victoria and Vancouver.

Miss C. Stenhouse of Calgary has been a guest of Mr and Mrs Gene Giroux, during the past week.

Teddy Schulte left Tuesday for Edmonton, Frederic and Wilfred Hilday leave Saturday next for Toronto.

Mrs Lewis of Calgary will spend the week end with her daughter Mrs. G. Giroux.

Mrs Lambert of Calgary is a welcome visitor in Strathmore at present staying with her son Arthur.

A meeting of the Strathmore District School Fair Executive, held Monday it was planned to hold the School Fair as soon as health conditions permit.

TOWN COUNCIL

A meeting of the Town Council was held on Thursday evening last.

The Mayor reported that the C. G. I. T. by their own efforts, were prepared to make a beauty spot of the old library barn site. It was agreed that the Council help by work, and also fence the site.

It was also decided to supply a truck for the Athletic Association meet, expected to be held here in 1939. The place selected is Railway Avenue between sixth and seventh streets. A start will be made next Spring.

YOUR BANK...

is as near as
your POST BOX

■ If there is no branch of The Royal Bank of Canada near you, it is still quite simple to conduct your banking business by mail. By using a form specially prepared by this bank, you can make deposits, draw money, remit cash to mail order houses, arrange for collections, etc., as simply as though you were at the bank itself. Write to the nearest branch of The Royal Bank of Canada and ask for Form S.F. 531, "Banking By Mail." This pamphlet explains exactly what you should do.

R. Pedersen	vs.	E. Wright
J. Gannon	vs.	E. Van Tighem
R. A. Brown	vs.	E. N. Jolley
George Koch	vs.	Alex Gray
Fred Holmes	vs.	L. Jones
F. C. Stenhouse	vs.	C. Swan
A. Person	vs.	M. Hirtle

W. Giffen and the winner of D. A. Perry and G. Giroux.

CANADIAN RED CROSS SOCIETY ALBERTA DIVISION

Dear Sir:—Through the kindness and co-operation of the companies and organizations operating grain elevators in Alberta, the Alberta Division of the Canadian Red Cross Society are permitted to display the attached poster in the elevators of this Province, as the Red Cross are in urgent need of funds to carry on their work.

In the drought area last winter we assisted 5,509 families with bedding and clothing. We are faithfully carrying out our duty of caring for crippled children whose parents cannot afford hospitalization and nursing care, and since 1929 we have assisted 2,427 children in our Junior Red Cross Crippled Children's Hospital.

In major disasters, such as the Moose River Flood, the American Flood Flood, the Ontario Flood Flood, and the Western Drought Flood, the Red Cross service were demanded, and the people nobly responded.

The expectant mother, the sick family, and those in distress appeal to us for assistance, but now we are finding it difficult to give Red Cross service. May we hope that you will be kind enough to co-operate with us by interesting the farmers?

Assuring you that we do appreciate whatever you may do for the Red Cross to help us carry on our humanitarian work.

Yours faithfully
D. H. Tomlinson, Commissioner.

NOT ALL POLITICS

But the public view of the daily news is always out of perspective. Shanghai and Europe are going to the movies. The Mediterranean is spangled with the white sails of pleasure craft. The taverns of Madrid are ringing with laughter. And even—in Alberta men and women rise in the morning and go about their tasks and harvest crops and love and labor to music and—write sonnets; the mountain streams still murmur as they move among the pebbles and thens still over red and gold, neither has the prairie lark forgotten his song. Extraordinary, last it.

STRATHMORE SCHOOL SPORTS

The Strathmore School Sports will be held in Strathmore Saturday, October 2nd and not October 29th as published in last week's Standard.

The first official meeting of the Town Improvement Plan held in the Town Hall Wednesday was very well attended and all were enthusiastic and a good start made.

The meeting called to order, Mayor Hughes was elected permanent Chairman of the committee and T. J. Wears Secretary.

The various organizations were represented by the following delegates: Town Council, Mayor Hughes, T. J. Wears; School Board, T. E. Wright; Teaching Staff, S. H. Crowther, W. I. McKenzie; The Churches, Rev. Gilbert, Father Cosman, Mr. Lang unavailably detained; Ladies Aid, Mrs. Campbell; Sorority, Mrs. Nichol; C. G. I. T., Frances Jones; Business Section, A. D. Shrimpton; Finance, C. F. Nichol; C. P. R., E. N. Ridley; Canadian Legion, Wm. Gray; Masonic Order, Jas. Gannon; Municipality, L. C. Van Tighem.

Mr McMurray has promised assistance and will decorate one window. Various items were discussed, first being the cleaning and decorating of the vacant windows on Main St. west. A letter was read from a Calgary firm in regard to obtaining window space to advertise their goods.

On motion of Messrs Crowther and Ginn, Mayor Hughes, T. J. Wears and A. D. Shrimpton were appointed a Committee to interview these people.

Mr Shrimpton suggested the placing of a fence between Redburn's Hardware and White & Gray's garage, and Messrs Nichol, T. E. Wright, W. Gray and L. C. Van Tighem were elected to arrange for it.

John Gattrecht brought up the question of watering the C. G. I. T. plot and the Mayor assured her the town would have the plot watered.

T. J. Wears suggested improving the approach to and banks around the Swimming Pool was brought up, and W. I. McKenzie and Jas. Ginn with the assistance of Mr. Melissen were elected to develop their ideas of artistic landscape gardening in this part of Strathmore. The pool is a very great boon to many, and a pleasing approach will do much.

Extensive planting of trees and other suggestions were made, to be brought up at the next meeting to be called by the chairman.

TED RAWL POWERFUL CHOICE

Ted Rawl was unquestionably the winning candidate in the final contest of amateur performers, held at High Theatre Tuesday evening. Mr Rawl has an excellent voice and the Strathmore public hope to hear him on future occasions.

Following the decision, he sang several other solos, the audience being loathe to hear the last. Mr Rawl's solo Tuesday evening was only A Rose. He was awarded the prize of \$5 from the Theatre.

DISCUSS PLANS FOR YOUTH CONFERENCE, CALGARY, NOV 21-22

Plans for a provincial youth congress to be held in Calgary November 21 and 22 and methods of best co-operating with the provincial and federal governments in the youth rehabilitation scheme, were discussed at a meeting of the provincial youth council in Y. W. C. A. Sunday morning.

Delegates included five from Edmonton, three from Lethbridge, one from Regina and one from Medicine Hat. Bill Thomson, vice president of the provincial committee was chairman.

As he hope to be able to work very closely in touch with the government to co-operation with the rehabilitation scheme, stated Miss G. Glandner, provincial secretary and delegate to the women's rehabilitation committee in Calgary.

Headquarters for the provincial congress committee are at the Y. W. C. A.

THE WORLD OF WHEAT

By H. G. L. Strange
Director "Crop Testing Plan"

"The low wheat yields in the West of recent years have been caused almost as much by loss of fibre and depletion of soil fertility as by lack of rainfall."

This startling statement is widely believed, I find, by people in Eastern Canada. If it is true then the future for the West is bleak indeed. Is that what the actual records reveal?

The average longtime wheat yield per acre for the whole West is 16.4 bushels, but the four comparatively recent years, 1925 to 1928, averaged an annual 20.1 bushels to the acre, a high or yield for any four years in the history of the West, excepting the one period from 1901 to 1904, when it was 21 bushels.

Fields and districts that have been cropped for 50 or 60 years—some in the drought area—are this year giving fine yields. On the other hand, in very early days, quite low yields were at times registered.

Records tell us further that, except

ing in rust years, low yields always come with low rainfall, and high yields with good rainfall.

Rainfall then still governs the yield, and soil fertility is of much less importance.

Give the Priries again good rains, and the fields will again produce good crops.

Following factors have tended to raise prices—Growing fears of war in Europe—Rains lower quality of grain in no-man's-land—Rains in Europe—Damage to crops in eastern Russia—Rising progress slowly—U. S. Department of Agriculture reduces crop in wheat, barley and flax—General raising in British maritime requirements.

Following factors have tended to lower prices—Danubian wheat quality good—Russia makes substantial wheat shipments of superior quality—Long milling, and use of substitutes in Europe—Curtail imports—General raising in Indian native food crops and help spring seedings—Mauritania soy bean crop above last year—Large Mediterranean Basin olive oil production.

STANDARD

A birthday party was held in the Church basement Sunday last in honor of Rev. Dick. The choir sang a number of selections. Mr. A. Larsen presented Mr. Beck with a check from the congregation as a birthday gift. Also, Christiansen also presented Berg Larsen with a gift from the young people. George is leaving to attend school at Mount Royal. A very lovely lunch completed a happy social evening.

A number of Standard Masons journeyed to Husker to attend Lodge there last week.

The United Church Ladies Aid held their last meeting in the country at the home of Mrs. Story on Thursday, Sept. 23.

Freddie Christensen left last week end to resume his studies at the University of Alberta. Freddie is to be congratulated on his standing last year and we hope he will be equally successful this year.

Mr. and Mrs. A. Larsen entertained a number of friends at dinner Sunday last. Those present were Mr. and Mrs. S. Rasmussen and family and Mr. Rasmussen's sister who is visiting here. Mr. and Mrs. Dahl and family, Mr. and Mrs. Hugh and Fabian and Miss Powan.

The Costello family accompanied by Mr. and Mrs. M. Hansen and children journeyed to Calgary to spend the day at Dinwiddie on Sunday, Sept. 20.

Several carloads of Standard residents attended the protest meeting of the People's League held in Calgary on Sept. 23.

BEE KEEPING

The season is over and though this warm weather is keeping the bees flying they are bringing in very little. The time has come to write for those who would like to start beekeeping next year though I am neither going to boast beekeeping or to say that it is completely unprofitable. A few hives if properly kept will give good results to a farmer with but twenty minutes work a week. The cost per hive will be anything from \$12 to \$15, the re-

ceipts in honey should be 100 to 150 lbs and maybe more. This at its present retail of 8 to 9 cents per lb equals somewhere between \$8 and \$15 in receipts and it must be remembered the hive does not have to be bought in the second year. The expense in the second year would be around \$6 per hive and your receipts would be the same as in the first year, and the price of honey is at the lowest it has ever been or will be.

But apart from many considerations if well protected, beekeeping is a pleasure and twenty minutes work in a week is not much time to have to give to a sideline and frequently four or five minutes is quite enough to do the work. The twenty minutes I state is the very longest that should ever be spent on a hive.

The above said. Well how does one begin. A hive may be obtained from several sources. Some Lumber companies, Shash and Baur Fisheries generally do. The Superior Hvy. Co. of Leithbridge and Gertson of Coakdale, all sell hive parts and I will take orders if given in good time.

The hive parts have to be fitted together. This is a simple matter but takes a little time so hives should be purchased early.

Bees are obtained from California. The Dept. of Agriculture, Edmonton, gives a list of shippers but if an association could be formed a discount is given which makes the bees cheaper. All things should be ready and all orders should be in by the middle of April as the bees should be in the hives by the 1st of May.

D. E. BARBER

CANADA THISTLE

Never have we seen this weed so prevalent as it is this year in some sections of the district. We have a problem on our hands to keep this menace under control. There seems to be no natural enemy of thistle in cultivated land and man, who was the introduction of the cultivator must provide the means of control.

First it must be remembered that you have not only to fight roots but also underground stems or rhizomes. These stalks extend outward from the root and at intervals send out roots and stems to produce new plants.

Also, the weed is so thick and so standard or stink weed in that its stem extends some distance under the ground and will, if cut off at the surface, send up new shoots.

A weedy patch can not be cured by merely running over with disc or cultivator as it is not long before new plants appear from the underground stems. These stems can only be killed by keeping all green growth down over a period of time.

This involves work but such is the life of a farmer.

Edmonton Letter

(By T. B. Winross)

Edmonton, Alta.—The stage is set and everything is ready for the opening of Alberta's fourth session of the legislature since the Social Credit government came into office a little more than two years ago.

Speculation as to the legislation to be introduced by the government is lively and several extravagant guesses are heard in various quarters, but the only reliable sources from which any information can be gleaned indicate that the house will be asked to pass banking legislation that will replace the act dissolved by the Dominion in August.

The character of this legislation is fairly well known from hints that have been dropped in public speeches by such social credit spokesmen as Glen MacLachlan, chairman of the Social Credit board and John E. Law provincial treasurer, as well as by veiled statements by Premier Aberhart himself.

The government is planning to introduce banking legislation similar in some minor details to the laws dissolved, but it is indicated it will be more severe in some details within the power of the provinces to enact. Licenses for banks are likely to be raised to a high figure and, if a recent statement by Hon. Solon Law is to be taken seriously, the business of banking is to be made as "unpleasant as possible" for the bankers.

Some measure of licensing for newspapers with the accompanying control over the publishing of news and views of a critical nature against the government is also contemplated, but just how far the government is prepared to go in this direction is not known yet. There is some doubt regarding the measure of support that will be given such legislation by members of the Social Credit party in the rank and file.

Licensing of newspapers has been

a pet plan of Premier Aberhart ever since he had to face the barrage of criticism against his radical economic theories on assuming office. The premier has always resented opposition and criticism and seemed to consider attacks on the soundness of his theories were necessarily attacks on his personal integrity. It is known very well now that when proposals to license the press were brought before the caucus in the spring session of the legislature this year, there was strong opposition among Social Credit members to such a plan.

MT. RUNDLE

The above majestic Mountain pointed by the clever Canadian Artist, Walter J. Phillips, II, C. A. is the subject chosen for a very beautifully designed calendar produced by the Stov of printing and lithographing Co. of Winnipeg, which came to our desk this morning.

The coloring is a joy to behold and the entire calendar a work of art. Having the mountain fit into its proper background of wooded landscape the mat of the calendar is a reproduction of quarter-cut oak.

Mr. Rundle is among the most majestic of the outstanding Rocky Mountains, speaking a strength and solidity that knows no conquest nor baffling—about the artist has given it a tranquil look in this canvas. The Canadian Rockies are rich in their scenic beauty and ever changing grandeur. Mount Rundle, that jagged rock tooth, seemingly identifies Banff, Alberta. It is a landmark, well known, long remembered by every eye.

Walter J. Phillips, R.C.A. has caught in his water colour, a pleasing tranquil glimpse of Mount Rundle. Born in England Mr. Phillips settled in Winnipeg in 1912. His paintings and wood block prints have gained for him a high reputation throughout the art loving world, and his colorful pictures of the Rockies, Pacific Coast and Lake of the Woods districts have done much to enrich Canadian art and appreciation of the natural beauties of Canada.

The complete calendar is typical of the excellent craftsmanship for which the Stovel Co. is known.

FEAR VERSUS FAITH

Fear in its many phases is at the root of much of the distress existing in the world today, both in the individual and in the nation. We are economically afraid socially afraid, nationally afraid and yet spiritually afraid.

"A new commandment, I give unto you," said The Messiah—"That ye love one another" which if carried out to the full, would solve all of this—then why is mankind so timid and vacillating in striving to bring about such a desirable condition.

Afraid! Yes we are afraid of the transition stage, and our faith is not strong enough in the ultimate good to urge us forward to the goal of peace and plenty for all.

Premier Mackenzie King said in a broadcast Sunday night. "In this stormy and transitional period of human affairs fear has largely supplanted faith in the conduct of nations and their ultimate civilization is at stake, governments and individuals alike must... pursue the arts of co-operation and reconciliation in every possible field of affairs."

Fleeing themselves to strive for peace through economic co-operation, were the following—Cordell Hull, United States secretary of state; an thony Eden, British foreign secretary; who spoke from Geneva; Prime Minister Camille Chautemps of France; Premier Van Zeeland of Belgium; Chancellor von Schuschnigg of Austria; President Alfonso Lopez of Colombia; and Premier Mylan Holm of Czechoslovakia.

We believe these men are sincere in their efforts and that their utterances are not the platitudes of pleasing rhetoric, but that these statements will be followed by action.

It is a mighty task, but the result will merit stupendous effort and only so can civilization be saved.

One sometimes hears the query "what saving?"

Yes—with the germ of the desire for the good of mankind that is innate in most, we answer yes—and the victory will be in the strong.

Outstanding in the broadcast was Eden's expressed hope that Great Britain and the United States might soon sign a trade agreement.

Canada has already made a trade agreement with her great neighbor.

Such an agreement would surely rebound not only to our own advantage,

but to that of the world, he said. Mackenzie King said that with conditions of war, actually existing on two continents, some might think the present an important moment to begin a campaign for world economic co-operation.

It may well be that for all countries it would have been better had something of the kind been commenced years ago," he added. "The fact, however, that this is so only serves to make clear the wisdom of the undertaking itself."

Along the path of international economic co-operation, he added, "there surely lies an effective means of avoiding further widespread if not world wide, civil and international strife. In economic co-operation there also exists a means of bringing into being a world order which holds within itself some promise of an enduring peace."

NANKING!

Ethiopia—Nanking?? What need for expansion in commerce or territory, can justify such cruel execution? It would seem that a general boycott of Japan's exports is the only measure to adopt, until such time as the Pootadvocates have time to make their plans effective.

CHRISTIAN SCIENCE

At all Christian Science Churches next Sunday, the subject of the Lesson-Sermon will be "Heal thyself." The following is one of the Scriptural quotations contained in the Lesson-Sermon. "But as it is written, Eye hath not seen, nor ear heard, neither have entered into the heart of man, the things which God hath prepared for them that love him" (1 Corinthians 2:9). One of the correlative passages from Science and Health, with Key to the Scriptures, by Mary Baker Eddy is as follows (page 299): "Life, Truth, and Love are the realities of divine Science. They dwell in faith and glow full orbed in spiritual understanding."

CHEADLE

The sympathy of the community is expressed to Mrs. Annie McLean, who suffered a broken wrist last Friday.

A baby girl was born to Mr. and Mrs. R. J. Russell recently.

Contestants in the Amateur Contest to be held in Cheadle, October 1st will please send in their names to Miss Lida McLean, Phone 7502.

CARSELAND

Mr. Stinson is at present in the Holy Cross Hospital in Calgary. His many friends wish him a speedy recovery.

At the first fall meeting of the Carseland Ladies Aid held at the home of Mrs. Roe, there were sixteen members present. Work for the bazaar

DINOSAUR EGGS?

Palaeontologists will be asked to verify what is believed to be a nest of petrified dinosaur eggs, laid perhaps sixty million years ago, and discovered following a landslide during a mountain highway construction job in the Waterton National Park, 45 miles southwest of Lethbridge.

They may be a world find. The only other dinosaur eggs ever discovered were found in Mongolia.

The petrified eggs are nine inches long and six inches in diameter. The nest is more than three feet in diameter.

During the millions of years since the dinosaurs roamed Alberta valleys the land has formed a perfect crust of rock over the nest.

Dr. C. M. Sternberg, palaeontologist, a member of the Geological Survey of Canada, from Ottawa, carried out field research work in the fossil beds of the Cypress Hills this summer, making many valuable finds. Bones of a fresh, extinct dinosaur, which he estimated lived 60,000 years ago, were

found.

A road crew, blasting out rock on the chief mountain highway, the connecting link between Waterton National Park and Glacier National Park in Montana, found the nest. It is now at the park engineer's office.

It was discovered a year ago, but little attention was paid to it then.

NIGHTINGALE

Mrs. Albert Mercer entertained the Women's Institute at her home last Thursday. The roll call was answered by Mrs. Mercer, who was assisted by the absence of Mrs. Stodoley who is suffering from ill health.

Arrangements were made for a dance on October 8th. The top of the

warded quilt was finished. The change of course of studies in school was discussed and the feeling seems to prevail that it will be a marvelous teacher who can accomplish all that is on Friday. A delicious feast was served at the close of the social hour.

Threshing is nearly completed and returns are far from expensive as the crop appearance promised.

Mr. and Mrs. Walker have moved to Calgary where they will live in housekeeping rooms.

Mr. Thornton was a Calgary visitor last Friday.

Mr. and Mrs. R. A. Lambert of Calgary were visitors here last Tuesday. Geoff Lambert who has been with Mr.

Harrison the past few months, and his father are leaving for England next Monday.

Mrs. A. J. Downey and children leave on Friday for Edmonton where they join Mr. Downey who is enrolled in the Dentistry course at the University of Alberta.

Don't forget to reserve October 8th for the big dance at Nightingale hall.

The Facts About Banking in Canada

Reproduced from the Third Broadcast in a Series by Vernon Knowles for the Chartered Banks of Canada and Delivered Over a Province-Wide Network of Alberta Stations on Tuesday Evening, September 21st, from 8:30 to 8:45, and Wednesday, September 22nd, from 12:00 noon to 12:15.

Millions Paid in Taxes to the Dominion Government... More Millions to the Provinces and to the Municipalities... Alberta's Revenue From the Banks Boosted... Most Branches Operate at Loss... Banks Have Faith in Alberta.

CANADA'S Chartered Banks have paid in taxes, in Canada, during the last ten years \$74,201,000.

We promised last week that we would tell you about the load of taxation we carry. Before we get into the very far to-night we shall give you a very plain, short set of figures. I would like you to get a pencil and paper to take down these figures when I reveal them to you.

We shall tell you also about our earnings, our profits and dividends. Our critics have been talking a great deal about the fabulous profits we are said to make; that criticism is unfounded. Let me repeat, as I said in our first broadcast, that we believe that many critics of the banks are sincere. We, too, are sincere.

You are often told that the banks should be taxed but we tell you that the banks are taxed and we want to tell you some things that will interest you about the taxes we bear.

Now are you ready with that pencil and paper? We will pause for a few seconds so that you may get ready—we are not going to ask you to take down a long list but just a few plain figures—

Well, now, are you ready?

Here's the story: Here's the last ten years the banks have paid:

In taxes to—	
The Dominion	\$22,771,000
The Provinces	12,258,000
Municipalities	38,262,000

This makes the sum I gave you in starting this broadcast—total of \$74,201,000, which we have paid in taxes in ten years. The banks do not complain of fair taxation; they expect to bear their due proportion of the expense of running a Municipality, a Province or the Dominion but, because so many people have been led to believe that the banks are not taxed at all, we are telling you of the taxes that we do pay.

Take the case of Alberta alone. This year the Province imposed upon us a new and additional tax of one-tenth of one per cent of our paid-up capital. It amounts to \$141,000 this year. Last year we paid to the Alberta Government total taxes of \$81,150. This averaged out at \$90 per branch. From paying \$81,150, in 1936, our Alberta tax in 1937 has been boosted to a grand total of \$222,000, or nearly three times what it was before.

We have told you the story of Provincial taxes. Now we turn for a moment to Municipal taxes. In 1936 the total of taxes we paid to Alberta Municipalities amounted to \$255,600. Our total of Municipal taxes in Alberta averaged out at \$121.19 per branch.

Let me repeat—the taxes paid by the banks in 1936 to the Province of Alberta alone averaged out at \$90 per branch. In 1937 they had risen to an average of \$115 per branch. And let me further repeat that the Alberta municipal taxes paid by the banks last year amounted to \$121.19 per branch. At that rate we are now paying a total of \$232.34 per branch in Provincial and Municipal taxes combined, quite regardless of the heavy Dominion taxes we bear. The Provincial and Municipal taxes combined, which are paid by the banks in Alberta, now reach the grand total of \$475.60 per year.

And yet, to hear some folks speak, you never know that the banks are taxed at all!

Do you know that very few of the bank branches in Alberta are making any profit? We are now going to tell you something that has never been revealed to the public before—we are letting you in on a secret.

Now if you are ready again with your pencil and paper we will give you the actual figures for 1935, the most recent year for which complete figures are available. There were then 221 branch banks in Alberta:

Only 41 of them made any profit. Seven of the 41 made not more than \$300 in that year.

And 180 were operated at a loss. You can figure out for yourself what effect \$141,000 in new and added taxes has had on that picture.

With all this newly-revealed information I have given you the picture is still incomplete, for you all know that a business such as ours cannot be carried on without some losses. Indeed the net result in Alberta for the ten years 1926 to 1935, is that after providing operating expenses and taking care of bad and doubtful debts, the banks have incurred a very substantial loss.

The money thus lost, I assure you, did not drip from the end of a fountain pen.

The money was lost—“Then why do the banks continue to operate in Alberta?” We answer: “Canada's Chartered Banks have faith in Alberta's future and in the people of the Province.” We feel sure that the period of hardship and drought will pass. That the West has had a struggle during the last seven or eight years. I remember the time, and many listeners must remember it too, when this Western country produced an export wheat crop of three to five hundred million bushels a year, when prices were high and marketing conditions were good. For years the West had, roughly speaking, from Three to Five Hundred Million Dollars in new money coming back into this country from the marketing of this newly produced wealth. Then, through fear of war and other conditions, the countries in Europe started restricting their imports and growing their own. World markets collapsed. Canada's banks did not do it; fear in Europe had much to do with it. And after that came the succession of heart-breaking dry seasons that our farmers have endured. You and I know what that had meant to Alberta. It has meant that for about seven years in the Great Central Plains of this Province and for almost ten years in the South, farmers have had either no crops or poor markets, which in any case result in the same thing—little or no money.

Canada's Chartered Banks had no more to do with the collapse of the markets in Europe than they had with bringing on the drought.

The real basis of hardship in this Province, as in the other Western Provinces, is that this great annual crop of new money has not been coming in.

If Canada's banks, by any miracle of lending, could have made it come in you can be sure we would have done so; for it is by lending that we live. That is our business. The banks are a part of your community. While you suffer we cannot prosper.

I have shown you how few branches in Alberta make any profit and how many are losing and, on top

of these losses, as I have shown you, we have an increased tax burden to carry.

Alberta audiences are intelligent—they are alive to questions of economics. Remember our responsibility to safeguard the funds of depositors. When we are losing money, if costs are increased by steep advance in taxes, what then? The alternative is either to pass on to our customers these added costs or steadily close out losing branches to a point where ends can be made to meet. Either way is a hardship to our customers and an inconvenience to their communities.

Now we turn to the matter of earnings. It is a popular misapprehension that because we pay one and one-half per cent on savings deposits and because, on the other hand, the highest interest rate we can charge by law is seven per cent, the difference between the one and one-half per cent and the seven per cent is all “wasted”—all profit. Let me point out to you why it is not so.

We have costs:

I am sure that all of my hearers are aware that no business can be carried on without costs. We pay wages. In the Province of Alberta alone during the past year we paid \$2,015,000 in wages to employees. We pay rent on premises. We spend money for stationery, printing and postage. We buy fuel and oil and light. We pay the enormous taxes that I have spoken to you about. We contribute heavily to pension funds and to group insurance for employees. Depreciation on bank buildings takes a large sum each year. We have also to set aside a substantial amount each year as a reserve for bad debts.

In addition to our costs there are distinct restrictions on bank earnings. Only a relatively small proportion of our loans earns the legal maximum of seven per cent. Let me tell you about these restricted earnings.

Banks must keep themselves in such a position that anybody going to the bank to withdraw his savings can get his money. We are required by statute to deposit with the Bank of Canada, earning nothing at all, a certain percentage of our depositors' funds. In addition it is necessary to keep in short-term investments a further amount upon which the yield is low. Why is this yield low? Because the bonds in which these funds are placed will mature at short date. The reserves of other companies as well as those of Chartered Banks are looking for this sort of investment—the type which can, of course, most readily be turned back into cash. The demand for this type of investment is great and the supply none too plentiful; therefore the price is high—which is another way of saying that the earning—the yield—is low.

The costs of doing business, coupled with restrictions on earnings, eat up most of the difference between the one and one-half per cent we pay on the seven per cent which it is wrongly supposed we earn on all our loans.

Let us take a little instance of the earnings on a loan. Let us say a farmer borrows \$100 in April, expecting to repay in the fall—say a six months' transaction. If the interest is seven per cent the gross amount of rent on this money paid to

the bank is \$3.50. In other words the farmer has used \$100 for six months at a rental of \$3.50; but what does the bank receive net? Not \$3.50, but a matter of cents only. We have taken a six months' transaction for illustration. The rate of interest is greater if the loan runs longer. Why? Because the costs we mention are running on all the time, too.

Last year's net earnings of the Chartered Banks on all of their business everywhere amounted to only one-half of one per cent on total assets and in previous years approximately the same. What commercial business or enterprise gets along on so narrow a margin?

You often hear it said that we pay big dividends and our own published annual statements are often used against us as seeming proof. Do you know that for every dollar of dividends paid the banks pay ninety cents in taxes?

The fact is that while by law \$100 is the par value of bank stock the average price at which the banks have sold their shares is \$145, of which \$100 has gone to Capital Account and \$45 to Reserve. In addition, during the scores of years the Chartered Banks have been in business, earnings of \$29 per share—instead of being paid out in dividends to shareholders—have been transferred to Reserve to add to the protection of bank depositors.

The total of a shareholder's investment is, therefore, on the average \$192 per share. So an \$8 dividend per share is a payment of only just over four per cent on the money invested.

Now we have dealt with taxes, earnings, costs and dividends. We have shown that banks operate upon a much smaller margin of profit than other lines of business.

We want to bring it home that the branch bank is a part of the community—that is true in the strongest sense. Besides giving a valuable service, banks maintain offices and staffs in scores of Alberta communities. They give opportunity of employment and a start in life to young people who take an active part in community affairs.

As a customer of public utilities, your local bank buys water, light, gas, power and fuel. It pays local taxes which go to the support of schools and hospitals and municipal institutions. It is on the job the year around, sharing your problems and taking its place as a good citizen.

And let me say that apart from their share of Dominion Government taxes—apart from any reserve for bad debts and for losses—the banks of Canada's Chartered Banks spent last year in taxes—Provincial and Municipal taxes—\$475.60 on business in Alberta. That was purchasing power for Alberta—and that money was not created out of nothing.

I hope I have made it clear that we have carried on these services throughout the long, lean years, at a loss so far as our operations in the Province of Alberta are concerned. Canada's Chartered Banks have faith in the future of Alberta and confidence in the fair judgment of the people when all of the facts are before them.

EDMONTON LETTER

Continued from Page Two
 first cottage to again tackle Premier Albert's pet plans even in the privacy of the party caucus.

There is said to be a strong feeling among some Social Credit members, however, that the government is on the wrong track and that its steam-roller methods of arousing the opposition to hot activity by definite progress toward dictatorship and rough riding over the ideals of British fair play and freedom of speech and opinion are fanning a fire of opposition to flames that will eventually sweep the Albertan faction out of office.

Some Social Credit members, a few in number, are said to resent the situation into which they have been led by Major Douglas' experts under-pledged silence and are now ready to reject their pledge to accept everything but before them without criticism.

The special session of the legislature, which opens on Sept. 24th is not likely to last more than about four or five days. There is a strong feeling that when it is over distinct evidence that plans have been on foot for a general election soon will be demonstrated. Everything points to an election, observers consider.

In some quarters it is declared that what will happen is that the government will again attempt to put into force banking legislation on the state books. It will be of such a nature that the same fate will overtake it as ended the last banking laws. The Ottawa government will feel it its duty to disallow it. Then with fresh material for a cry of the people against the banks in his hands Premier Albert will go to the voters and ask to be sent back to Edmonton with a renewed mandate to defy the dominion and drive his steam roller through to Social Credit in defiance of the constitution if necessary.

There are growing signs, however, that the government has already shot its bolt in this direction, the demonstrations at Calgary and Red Deer under the auspices of the People's League of Alberta, are indubitably signs that the feeling of condemnation of Albertism is spreading in Alberta, and that the government will not have such an easy walk over if it goes to the polls now. The longer Premier Albert delays his appeal to the electors the smaller his support is likely to be.

A NAME THAT WILL LIVE

The name of Dr. T. G. Masaryk will go down in history as one best beloved by his people. He was Premier of Czechoslovakia after the great war, and by his statesmanlike qualities, won the high respect of his people.

YOUNG PEOPLE'S NIGHT

Youth is presently the time for making friendships, high school and college chums are lifetime friends. If it were possible to analyse accurately our emotions, it would probably be discovered that much of the sentimentality associated with the term ALMA MATER is due to the young people we worked with in those days.

For the past two years, the last Sunday in the month has been set aside in the United Church as Young People's Night. Next Sunday evening will usher in the fall and winter series of these services. The Junior Choir has prepared special music along with the Senior Choir. The Y. P. S. will hold their first meeting after the holidays, at the close of the service. Then Mr. Gilbert has chosen as his subject, FRIENDS.

All young people and those who were young are invited to join with us in the United Church at 7:30 p.m.

LECTURE ON PEACE

Central United Church, Monday 27th
 World-wide efforts to organize in the "International Peace Campaign" headed by Vincent Court of Chelwood, the forces making for the preservation of peace, will be described by A. A. MacLeod, Chairman of the Canadian League for Peace and Democracy, who will speak in Central United Church, Calgary, Monday, Sept. 27th at 8 p.m. Mr. MacLeod has recently returned from Europe.

W. I. ENJOY SOCIAL AFTERNOON

The regular meeting of the Women's Institute was held at the home of Mrs. Ellen Way last Wednesday, with 18 present. The house was decorated with red autumn leaves, also being used as place cards at the luncheon tables. Very elaborate refreshments were served and various color of lunch cloths and serviettes added to charm of tables. A social half hour drew spent and each guest drew her fortune from a fortune box especially made for that purpose.

THE HARVEST

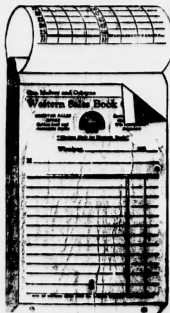

After a period of the finest harvest weather we have known for several years the weather has broken and threshing is held up for a few days. It is hoped it will not be for long. Threshing is about 60 per cent completed, the average yield of wheat in this part being about 9 bushels. The grade however is good, most grades No. 1. Some No. 2. The Ottawa letter in this week's Standard details the wheat yield throughout Canada.
